FRACTIONAL AND PRO-RATA REGISTRATION

The registration tax period for private passenger automobiles, recreational vehicles, motorcycles, trailers, and other non-commercial vehicles begins the first day of your birth month and expires the last day of the month before your birth month. To compute your tax by this chart, you must determine how many months of tax are required in order to expire at the end of the month before your next birth month. Three months or less requires the quarter-year rate, between four and six months requires the half-year rate, and any number of months over six requires the full-year rate.

Light-weight trucks through 5000 pounds being registered for the first time are subject to proration. However, if they were registered in the previous period, they must pay full tax until after the first three (3) months of the new registration period has expired.

WEIGHT AFFIDAVITS--CERTIFIED Must be submitted when applying for truck or trailer tags.

The operation of any motor vehicle without valid current license tag attached shall subject the operator to arrest and punishment as provided by law for the operation of a motor vehicle without proper license.

Used cars already registered in another state, Certificate of Title if from Title State, or Registration or other official document showing ownership must be submitted if from non-title state.

All Proof of ownership submitted in exchange for Florida Certificate of Title will be retained by the Division of Motor Vehicles.

SALES TAX – 4% sales tax required on straight sales (no trade-in) or cash difference paid on trade, new or used, when applying for certificate of title within six months from date of purchase in another state, unless sales tax equal to Florida sales tax was paid in state of purchase, or if sales tax paid in state of purchase is less than Florida tax, the difference must be paid, in either case, written evidence of sales tax paid must be submitted. Receipt for payment of sales tax to Florida Department of Revenue must be attached to application for Florida title.

It is clear from the decision made by the District Court of Appeals that the word "state" as it appears in Section 212.06(8), F.S., and the Department of Revenue Rules and Regulations, Florida Sales and Use Tax Law, would be specifically defined as the United States and Protected Territories including the Virgin Islands and Puerto Rico.

Therefore, a vehicle used in another country for a period of six months or longer would not qualify as exempt from use tax when it is brought into the State of Florida for use. Additionally, if tax was paid in another country, it would not be recognized by the State of Florida in arriving at the tax due on the property imported into our state for use and consumption.

* Temporary Tags, In-transit Tags and Transfers are included in both the tag and revenue counts beginning with fiscal year 1975-76. This also applies to subsequent years.

** The decrease in registrations and revenue from 1976-77 to 1977-78 is due to implementation of the staggered registration system during fiscal 1976-77. The implementation in 1976-77 caused a non-recurring, inflated registration and revenue amount for that fiscal year.
